

CHURCH PLANTING

AFRICA, INDIA, MIDDLE EAST CENTRAL & SOUTH AMERICA, EAST ASIA

- New churches are being started amongst unreached people groups in Africa, India, Central & South America, East Asia and the Middle East
- By supporting indigenous pastors who know the language and customs of their region, the Gospel is able to reach the people successfully.
- A church plant costs an average of \$3 per day for 1yr
- Church planting strategies vary from region to region. Most will include an evangelistic campaign followed by the development of small home groups and 2 years of training for the pastor.
- There is a goal to have the church financially self-sustaining by 12months. After 12months the average church will have 50 people in attendance while some have as many as 2,000 attendees.
